## RENDERS & TEXTURES

Unitex® Renders and Textures provide an acrylic coating for exterior and interior walls over any substrate and offer superior protection from moisture, rain and UV light.

### Why choose a Unitex® Render and Texture System?

- Extensive choice of colours and textures
- Designed for all modern cladding and masonry substrates
- Longevity and durability (1 mm Unitex acrylic finish over the appropriate Unitex Polymer render, will provide 50 years of substrate protection)
- Better performance than paint - paints do not hide uneven substrates and have a short life-span
- The most cost effective long-term solution for building surface coatings
- Warranty security over the various substrates where on-site mixed renders fail
- Ease of application for the renderer
- Only requires the addition of water

### Designers and Architects

- Plan estimation and quoting service
- Sample service for texture and colour approval
- Reliability - 30 year product and site defect-free history
- List of major projects include shopping centres, multi-story city office blocks, high-rise apartment blocks (new and change of façade refurbishment), mansions and heritage listed projects, general housing and apartment blocks
- Technical on-site service for substrate approvals
- Downloadable specification clauses
- Architectural representative available for all your enquiries

### Builders

- Plan estimation and quoting service
- In-situ applied samples for approval prior to manufacture
- Full range of renders to suit all your customers' and substrate requirements
- Extensive range of colours
- Extensive applicator network
- Complete render, texture and protective surface coating/paint system from one supplier
- One warranty for complete system signed by Applicator and Unitex
- Insulating and high-build renders available
- Specialty high bonding renders for extreme substrates (such as tiles, smooth HD concrete and FC sheet)
- Technical site service to aid in selection of appropriate Unitex products for in-situ substrates

### New Homeowner and Renovator

- Fine, medium and course trowel-on and roll-on textures available
- Coloured, feature wall, natural granular marble finishes available
- Create an old world, rustic look with Unitex Veneto earthy finishes
- Your builder provides you with the Unitex Render and Surface Applied Texture Finish Warranty for your peace of mind
- Unitex Sales and Customer Care staff are available for technical enquiries
- Reliability - 30 year defect-free product manufacturing history

Unitex recognise that fashions change and colour schemes evolve constantly. So systems and products can be easily updated and any colour matched.

### Who is Unitex?

Unitex is proudly an Australian manufacturer, utilising local technology with our own in-house chemists, designing innovative products suitable for the Australian market. A family owned business, with the founding directors continuing to lead the company with innovative product lines.

Unitex is considered by Australia wide industry experts as the premier product coatings system for external façades. This has been achieved by a 30 year history of coatings, mouldings and insulation cladding (EIFS) for award-winning commercial and housing projects nation wide.

Our customers value the technical on-site expertise of our in-house trained Technical Sales staff. Along with over 50 years knowledge and hands-on experience from the senior team, this know-how assures our customers of guaranteed first-class quality and service across the entire Unitex range.
